de la Alpaca

International  
Alpaca  
Association

ALPACA  
DEL PERU

## Care Instructions

- Hand wash at maximum temperature of 25 °C with neutral soaps and/or softener for natural or fine fibres.
  - Alternatively, dry clean only with the appropriate solvents.
- ✉ For garments with very contrasting colours and/or a striped design, please contact our sales department at: [michell@michell.com.pe](mailto:michell@michell.com.pe)

## Important Notes

- Alpaca contains black hair, which becomes noticeable in white and light shades. These should be considered as a characteristic of Alpaca and Alpaca Blended yarns.
  - We recommend **not to re-spool** the yarns since the quality of the yarn may be diminished.
  - If necessary, please take maximum care in order to obtain soft cones and uniformity.
  - We use splicers in most of our yarns.
  - The average number of knots per kilo is about 4/5.
- ✉ For more information, please contact our sales department: [michell@michell.com.pe](mailto:michell@michell.com.pe)
