Licences

Care Instructions

- Hand wash at maximum temperature of 25 °C with neutral soaps and/or softener for natural or fine fibres.
- Alternatively, dry clean only with the appropriate solvents.
- For garments with very contrasting colours and/or a striped design, please contact our sales department at: michell@michell.com.pe

Important Notes

- Alpaca contains black hair, which becomes noticeable in white and light shades. These should be considered as a characteristic of Alpaca and Alpaca Blended yarns.
- We recommend not to re-spool the yarns since the quality of the yarn may be diminished.
- If necessary, please take maximum care in order to obtain soft cones and uniformity.
- We use splicers in most of our yarns.
- The average number of knots per kilo is about 4/5.
- For more information, please contact our sales department: michell@michell.com.pe
